

**Example preliminary spatial outputs
generated from data collected during benthic
habitat surveys of four localities in the
Canning Marine Bioregion (Gourdon Bay,
Quondong – Coulomb Points,
Perpendicular/North Heads and Packer
Island) in June 2008.**

Data and maps from:

Fry G., Heyward A., Wassenberg T., Taranto T., Stieglitz T. and Colquhoun J. (2008) Benthic habitat surveys of potential LNG hub locations in the Kimberley region. A study commissioned by the Western Australian Marine Science Institution on behalf of the Northern Development Taskforce. CSIRO and AIMS joint report for WAMSI
